## INDEX TO VOLUME CLXXV.

## AUTHORS.

- Abbott, Maude E. Seymour.** The portraits of Florence Nightingale, 361, 413, 422.
- Auler, Herman M.** Indications for wet packs in psychiatric cases; an analysis of one thousand packs given at the Psychopathic Hospital, Boston, Massachusetts, 673.
- Adrianne, V.** Tubercular infection in infancy and childhood, 215; Tuberculosis in rural communities, 559.
- Amesien, H. H.** Ether anesthesia, 832.
- Anarews, J. A.** A timely brief for health insurance, 533.
- Arnson, F. W.** Industrial health legislation, 911.
- Arnold, H. D.** The "unpreparedness" of the medical profession, 111.
- Atwood, C. A.** Pistol-shot wound of the stomach, 136.
- Austin, A. E.** Progress in biochemistry, 639.
- Ayer, J. B., and Vieta, H. R.** Intraspinal epidural abscess (pyogenic): case with autopsy, 865.
- Bacon, G.** The streptococcus mucosus capsulatus as a cause of mastoid disease, 602.
- Baker, H. M., and Floyd, C.** Protein extracts in states of hypersensitization, 193.
- Batchelder, W. B.** An error of quotation, 657.
- Bateman, F. E.** A general practitioner's opinion, 284.
- Berlin, M. G.** A report of three cases of typhus fever, 755.
- Bigelow, G. H.** A review of 127 clinical cases of axiatic paraplegia, 59.
- Blair, R.** Extirpative degmatitis following neosalvarsan injections, 96.
- Blaisdell, J. H.** The menace of syphilis of today to the family of tomorrow, 7.
- Boothby, W. M.** The clinical value of metabolic studies of thyroid cases, 564.
- Bowen, J. T.** Report on dermatology, 758.
- Bowditch, V. Y.** Opening remarks of the president at the second annual meeting and conference, April 27, 1916, of the Massachusetts Anti-Tuberculosis League, 522; The history of the growth of the anti-tuberculosis movement in Massachusetts, and the lessons to be learned therefrom, 847.
- Brown, T. R.** A clinical study of the secretions of the digestive tract, 775.
- Bryant, J.** The ileo-cecal valve and the chronic intestinal invalid, 572; Artificial heliotherapy, the mercury-vapor-quartz light a valuable therapeutic agent, 699.
- Bucholz, H., et al.** Eleventh report of progress in orthopedic surgery, 309, 342.
- Buck, C. L.** Circulatory disturbances in the obese, 332.
- Bunker, S. M., and Meft, G. E.** Report of the clinical symptomatology and laboratory findings in three cases of general paresis under intravenous arsenobenzol treatment, 338.
- Burnham, A. C.** Sprains and sprain-fracture of the wrist joint, 118.
- Cabot, H., and Crabtree, E. G.** The mechanism of the protection afforded by the drainage of prostatics as a preliminary to operation, 633.
- Cannon, W. B.** Conditions affecting secretion of the thyroid gland, 562.
- Chapin, C. V.** Scarlet fever, 715.
- Chase, H. M.** Pathology of clavus (soft corn), 134.
- Cheever, D.** Some aspects of the treatment of compound fractures under civil and military conditions, 442.
- Clap, E. W.** Progress in ophthalmology, 798.
- Collier, F. A.** Fractures in base hospital, 741.
- Cook, P. H.** Roentgenotherapy in hypertrophy of the thymus gland, 483.
- Corliss, I. H.** Dystonia musculorum deformans—Oppenheim's new disease of children and young adults, 383.
- Corrwall, E. E.** The treatment of obesity by a rational diet, 601.
- Cotton, F. J.** The treatment of hip fractures, 438; Hospitals and workmen's insurance, 461; Hospital and general practitioner, 453; Sickness survey in Boston, 112; A consideration of workmen's accident and sickness insurance in their relation to the medical profession, 893; Treatment of hip fractures: a rejoinder, 923.
- Coues, W. P.** Guillaume Dupuytren, 1777-1835, 489; Harvey's trip to Padua, 774.
- Crabtree, E. G., and Cabot, H.** The mechanism of the protection afforded by the drainage of prostatics as a preliminary to operation, 633.
- Croft, B. P.** Hygiene of the mind, 251.
- Crosby, H. J.** The administration of the Workingmen's Compensation Act by the City of Cambridge, Mass., 906.
- Crosby, J. G.** The Workingmen's Compensation Act, 882.
- Curtis, Hannah.** The function of social service in state hospitals, 271.
- Cutter, Alice S.** Corsets versus backache and fatigue, 168.
- Danforth, M. S., et al.** Eleventh report of progress in orthopedic surgery, 309, 342.
- Darrach, W.** The importance of early reduction of fractures with displacement, 457.
- Devermann, M. L.** Report on obstetrics, 867.
- Donaghy, F. D.** Some medical aspects of the Workingmen's Compensation Act, 400; Restoring the injured employee to work, 457; The history and operation of the Massachusetts workmen's compensation law, 897.
- Downing, A. F.** The general practitioner's "Apologia pro vita sua," 17; Were the sailors of Columbus the first European syphilitics?, 513.
- Edes, R. T.** Is it worth while?, 360.
- Emerson, H.** Preparedness for health, 811.
- Fairbanks, A. W.** Lighter forms of poliomyelitis, 436.
- Fell, E. W.** Fatty degenerative changes in the Purkinje cell belt of the cerebellum in exhaustive infective psychoses, 819.
- Fink, E. B.** Acute primary "idiopathic" phlegmonous sialitis: report of a case, with bacteriological findings, 795.
- Flood, E.** Epilepsy, 408.
- Floyd, C., and Baker, H. M.** Protein extracts in states of hypersensitization, 193.
- Fraser, F. R.** Epidemic poliomyelitis, the symptomatology and diagnosis in the acute stages, 83.
- Frement-Smith, F.** Treatment of diabetes, 476.
- Gardiner, J. P.** Pregnancy complicated with hernia, 637.
- Gay, G. W., and Warren, J. C.** David Williams Cheever, M.D., LL.D., 71.
- Getchell, A. C.** A year's work of a local tuberculosis hospital, 229.
- Girault, H. A.** Peruvian custom, 295.
- Goddard, H. H.** The menace of mental deficiency from the standpoint of heredity, 269.
- Goldthwait, J. E.** Anatomic form and posture, important factors in the treatment of pulmonary tuberculosis, 88.
- Goodale, J. L.** The diagnosis and management of vasomotor disturbances of the upper air passages, 181.
- Graves, S.** Multiple primary heterogeneous tumors: a case of two primary malignant tumors, one of the kidney, the other of the stomach, with metastases from each in the liver, 949.
- Greeley, H. P.** Speculations regarding the pancreas and metabolism in diabetes, 753.
- Hawes, J. B.** 2d. Common sense and consumption, 115; Prevalence of tuberculosis in Massachusetts, 146; A correction, 395.
- Hill, T. C.** Prolapsus ani in adults, 127.
- Hitchcock, J. S.** The Massachusetts tuberculosis dispensaries and their relation to the practicing physician, 225; Report of the fatal cases of diphtheria occurring in the Connecticut valley health district in Massachusetts during 1914, 718.
- Homans, J.** A study of the symptoms and treatment of congenital transduodenal bands, 665.
- Horne, A. A.** Definition and detection of acidosis in diabetes mellitus, 148.
- Howell, W. W.** Treatment of tuberculosis in infancy, 411.
- Jacobs, P. D.** Third New England tuberculosis conference, 395.
- Jarrett, Mary C.** The intensive group of social service cases, 824.
- Jones, D. F.** Relation of the deep cul-de-sac to prolapse of the rectum and uterus and to rectocele, 623.
- Joslin, E. P.** Results obtained in the treatment of diabetes mellitus, May 1, 1915-May 1, 1916, 147.
- Keller, E. R.** The plan of the State Department of Health for more tuberculosis hospitals, 524.
- Kendall, E. C.** Recent advances in our knowledge of the thyroid constituent of the thyroid: its chemical nature and function, 557.
- Kilcore, A. R.** Perineural neuritis following emetin treatment of amebic dysentery, 289.
- Klebs, A. C.** Leonardo Da Vinci's scientific research, with particular reference to his investigations of the vascular system, 45.
- Knight, P. C.** The treatment of paresis by intra-ventricular injections of diarsenized serum with presentation of cases, 24.
- Konikow, M. J.** A case of bloody tears, 607.
- Ladd, W. E.** Fractures of the lower end of the humerus, 220.
- Lahav, F. H.** Partial thyroidectomy with local anesthesia, scopolamine and morphia, 568.
- Lahav, F. H., and Powers, H.** The first case in which abdominal surgery was suggested for the relief of epilepsy, 124.

## SUBJECTS.

- Abortion, Criminal, and the will to survive, 64.**  
**Abscess, epidural intraspinal, of pyogenic origin, a case, W. J. Mixter, M.D., 864; Intraspinal epidural (pyogenic), case with autopsy, James B. Ayer, M.D., and Henry R. Viets, M.D., 865.**  
**Aetiology in diabetes mellitus, definition and detection of, Albert A. Hornor, M.D., 148.**  
**Acute Psychoses of war, 805.**  
**Adolescence, occupation and health in human types in the period of, 649; Mental pitfalls of, Henry R. Steadman, M.D., 695.**  
**Airmen, tests for, 158.**  
**Air Passages, vasomotor disturbances of, the, diagnosis and management of, J. L. Goodale, M.D., 181.**  
**Alcohol, the action of, 208; The effect of, on the rate of discharge from the stomach, L. T. Wright, M.D., 637; Mortality from war and, 692.**  
**Alcoholism, relation of epilepsy to, Hale Powers, M.D., 861.**  
**Alveolar Osteomyelitis, the present status of, its causes and treatment with vaccines, Leon S. Medalla, M.D., 367; Pyorrhea alveolaris and its treatment, 391.**  
**Amelie Dysentery, peripheral neuritis following emetin treatment of, A. R. Kilgore, M.D., 886.**  
**American Association for the Prevention of Infant Mortality, meeting of, 605.**  
**American Committee for Medical Preparedness, 103.**  
**American Public Health Association, meeting of, 605.**  
**American Red Cross, base hospital units, 33, 211; Appeal for aid, 68; Instruction to chapters, 68; Nursing service, 247; New bureau in New York, 653.**  
**Ammonium Salicylate in polymyositis, Beverly Robinson, M.D., 775.**  
**Amputation without skin flaps, 428.**  
**Anaphylactic Tests, preparation of vegetable food proteins for, E. P. Whitehouse, 195.**  
**Anaphylaxis, its relation to asthma in children, Fritz B. Talbot, M.D., 191; Protein extracts in states of hypersensitization, Horace M. Baker and Cleveland Floyd, M.D., 199; Relation of idiosyncrasy to cow's milk to, Fritz B. Talbot, M.D., 409.**  
**Anatomic Form and posture, important factors in the treatment of pulmonary tuberculosis, Joel E. Goldswald, M.D., 88.**  
**Anesthesia, Edward L. Young, Jr., M.D., 22; Ether, H. H. Amsden, M.D., 832.**  
**Animal Transmission of human diseases, 510.**  
**Anterior Polymyositis, new method of making, 179.**  
**Anti-Hog-Cholera Serum, new method of making, 179.**  
**Anti-Tuberculosis Movement in Massachusetts, the history of the growth of, and the lessons to be learned therefrom, Vincent Y. Bowditch, M.D., 847.**  
**Anti-Vaccination, the propaganda of, 688; Samuel B. Woodward, M.D., 694; Jassica L. C. Henderson, 694.**  
**Antisepsis, the future, the general practitioner's, Andrew F. Downing, M.D., 17.**  
**Apraxia, more reports of, 139.**  
**Army Medical Corps examination, 658; And navy, the need of psychiatrists in, 803.**  
**Arseno-Benzol Treatment, intravenous, report of the clinical symptomatology and laboratory findings in three cases of general paresis under, G. E. Mott, M.D. and S. M. Bunker, M.D., 338.**  
**Arthritis, Acute, experimentally produced by intravenous injections of the staphylococcus pyogenes, E. C. Steinhilber, M.D., 59.**  
**Artificial Heliotherapy, the mercury-vapor-quartz light a valuable therapeutic agent, John Bryant, M.D., 600.**  
**Asthma in Children, II, its relation to anaphylaxis, Fritz B. Talbot, M.D., 191.**  
**Ataxic Paralysis, a review of 127 cases of, G. H. Bigelow, 99.**  
**Auricular Standstill, an unusual effect of digitals on the heart, with special reference to the electrocardiogram, Paul D. White, M.D., 233.**  
**Australia, venereal disease in, 577.**  
**Autism, the physiological point of view and, Francis H. McCrudden, M.D., 167.**  
**Baldwinsville hospital cottages, 647.**  
**Base Hospital Units, American Red Cross, 33, 211.**

**Efficiency Problems** in country medical practice, Frank H. Washburn, M.D., 558.

**Electric Delineation of Viscera**, 766.

**Emetin**, the use of, Alfred C. Reed, M.D., 375; Treatment of amebic dysentery, peripheral neuritis following, A. R. Kilgore, M.D., 380.

**Empyema**, case of double, successfully operated upon, with remarks upon localization, F. B. Lund, M.D., and H. Morrison, M.D., 606.

**Epidemiologist**, the position of state, 731; Notice of a competitive examination for qualification to the position of in the Massachusetts State Department of Health, 735.

**Epidual Intraspinal cord tumor of two years' duration**, operation and recovery, W. E. Paul, M.D., 133.

**Abscess of pyogenic origin**, a case of, W. J. Mixer, M.D., 864; (Frogman) a case with autopsy, James B. Ayer, M.D., and Henry F. Viets, M.D., 865.

**Epilepsy**, the first case in which abdominal surgery was suggested for the relief of, Hale Powers, M.D., and Frank H. Lahey, M.D., 124; Everett Flood, M.D., 408; Second note on the frequency of, in the offspring of epileptics, D. A. Thom, M.D., 599; The etiology of, some of the clinical evidence relating to, including some notes on the condition of the teeth as a factor in its production, and on its relation to alcoholism and to mental defect, Hale Powers, M.D., 861.

**Essex North District Society**, resolutions relative to Workmen's Compensation Act, 33.

**Ether Day exercises**, Massachusetts General Hospital, 614; Anesthesia, H. H. Amsden, M.D., 632.

**Furuncles**, story of the Duck family, 515.

**Exfoliative Dermatitis** following neosalvarsan injections, Rene Bine, M.D., 96.

**Eye Chances** in renal diseases, Peter Hunter Thompson, M.D., 161.

**Fatty Degenerative Changes** in the Purkinje cell belt of the cerebellum in exhaustive infective psychosis, Eberhart W. Zell, M.D., 819.

**Feeble-Minded Question**, the status of the, 26.

**First-Aid Methods**, standardization of, 537.

**Flexed Spica** and wheel-chair in the treatment of fractures of the neck of the femur, G. A. Moore, M.D., 448.

**Florence Nightingale**, portraits of, Maude Seymour Abbott, B. A., M.D., 361, 413, 453.

**Fly Problem**, 145.

**Fractures of the lower end of the humerus**, W. E. Ladd, M.D., 220; Symposium on, 437; The importance of early reduction of, with displacement, William Darrach, A.M., M.D., 437; Treatment of hip, F. J. Cotton, M.D., F.A.C.S., 438; Operative treatment of the patella, Charles L. Scudder, M.D., and Richard H. Miller, M.D., 441; Treatment of compound, under civil and military conditions, David Cheever, M.D., 442; Discussion, 445; of the neck of the femur, flexed spica and wheel-chair in the treatment of, G. A. Moore, M.D., 448; in a base hospital, Frederick A. Collier, M.D., 741.

**Gastric Ulcer**, a study of, from the diagnostic point of view, Roscoe H. Philbrick, M.D., 121.

**Gastritis**, acute primary "idiopathic" phlegmonous, report of a case with bacteriological findings, Emanuel B. Fink, S.B., 795.

**Gay, Warren Fisher**, M.D., obituary, 359.

**General Practitioner** versus hospital clinic, (see "Better doctoring for less money").

**Germany**, effect of the war on the younger generation in, 215; underground hospital in, 769.

**Goutre**, symposium on, Massachusetts Medical Society Meeting, 551; Discussion, 551.

**Graves' Disease**, (see thyroid gland), 568.

**Gynecology**, progress in, Stephen Rushmore, M.D., 494.

**Harvard Graduate School**, course in military medicine, 64.

**Harvard Infantile Paralysis** commission, 507.

**Harvard Medical School**, class of 1911, report of, 429; Personnel of surgery, 422; of China, 553.

**Harvey's Journey to Padua**, William Pearce Coates, M.D., 774.

**Hawaii**, sanitary progress and vital statistics of, 546.

**Hay-Fever**, 208; Its treatment with autogenous vaccines and pollen extract, Leon S. Medalla, M.D., 201.

**Health, preparedness for** Haven Emerson, M.D., 511; and sanitation in the Navy, 575.

**Health Insurance**, 554; 541; 549; A timely brief for, John A. Andrews, 539; Report on, by Massachusetts Medical Society, 585; The Dotten Bill, 535; The Dotten Bill (House No. 1015), 540; Industrial, 573; Workmen's sickness insurance and the doctor, 589; (see workmen's compensation); Legislation, 521.

**Heart**, an unusual effect of digitals on the, with especial reference to the electrocardiogram, auricular standstill, Paul D. White, M.D., 232; Disease, prevention and relief of, 767.

**Heliotherapy**, artificial, the mercury-vapor-quartz light a valuable therapeutic agent, John Bryant, M.D., 600.

**Hematocele** of the tunica vaginalis, with the report of an unusual case, Charles M. Whitney, M.D., 51.

**Hemoptoeus Infection**, 650.

**Hemoptoeus** as a symptom, Frederick T. Lord, M.D., 113.

**Hexamethylenamin**, excretion of, by damaged kidneys, George Gilbert Smith, M.D., 569.

**Hip Fractures**, treatment of, F. J. Cotton, M.D., 438; The flexed spica and wheel-chair in the treatment of fractures of the neck of the femur, G. A. Moore, M.D., 448; Treatment of, Royal Whitman, M.D., 734.

**Household Nursing**, 554.

**Hygiene of the mind**, Benjamin P. Croft, M.D., 351.

**Hypercalcaemia**, protein extracts in states of, Horace M. Barker and Cleaveland Floyd, M.D., 859.

**Hyperthyroidism** of the thyroid gland, roentgenotherapy in, Philip H. Cook, M.D., 483.

**Hysterectomy**, vaginal, for proclivita, with report of fifty cases, P. E. Truesdale, M.D., 13.

**Ideocyneras** to cow's milk, its relation to anaphylaxis, Fritz B. Talbot, M.D., 469.

**Intestine**, of the Valve and the chronic intestinal invalid, John Bryant, M.D., 572.

**Industrial Accident Insurance** and workmen's compensation, 464; Decision of Michigan supreme court, 609 (see workmen's compensation), (see health insurance).

**Industrial Corporations**, welfare work among, 175.

**Industrial Health Insurance**, 541; 549; 573; 518; a timely brief for, John A. Andrews, 539; (see health insurance) (see workmen's compensation).

**Industrial Insurance** and workmen's compensation, 464; First legislative convention of Massachusetts Physicians, 512 (see health insurance).

**Infancy and Childhood**, tubercular infection in, Vanderpoel Adriance, M.D., 215.

**Infantile Paralysis** (see poliomyelitis) a suggestion as to the prevention of, W. E. Paul, M.D., 133.

**Infantile Paralysis**, 231; Rat theory of, Mark W. Richardson, M.D., 397.

**Intraspinal Epidural Abscess** (pyogenic), case with autopsy, James Ayer, M.D., and Henry F. Viets, M.D., 865; A case of, of pyogenic origin, W. J. Mixer, M.D., 864.

**Intraspinal Tumor**, epidural, of two years' duration, recovery, W. E. Paul, M.D., 133.

**Is it Worth Whiter**, Robert T. Edes, M.D., 359.

**John Harvard Scholarships**, address at the awarding of, Abner Post, M.D., 473.

**Kern-Doremus Bill**, 390.

**Labor Pains**, treatment of weak, Stephen Rushmore, M.D., 659.

**Legislative Convention of Massachusetts Physicians**, 512.

**Leonardo Da Vinci's** scientific research, with particular reference to his investigations of the vascular system, Arnold C. Klebs, M.D., 1, 45.

**Lilienthal X-Ray Tube**, 432.

**Lincels, David Francis**, M.D., obituary, 693.

**Massachusetts Anti-Tuberculosis League**, second annual meeting and conference, April 27, 1914, 629; Opening remarks of president, Vincent Y. Bowditch, M.D., 523; Report of secretary, Seymour H. Stone, 637.

**Massachusetts College of Pharmacy**, a new building for, 27.

**Massachusetts Commission** on mental diseases, 210; on social insurance, 562.

**Massachusetts General Hospital**, pay consultation clinic at 35; The Moseley memorial, 614.

**Massachusetts Hospitals for Consumptives**, problems of the trustees of, Arthur K. Stone, M.D., 533.

**Massachusetts Medical Society**, Essex North District Society, resolutions relative to Workmen's Compensation Act, 33; Meeting of the section of medicine: Papers on diabetes mellitus, 147; Papers on phthisis, 158; Meeting of the section of surgery: Symposium on fractures, 437; First legislative convention of Massachusetts physicians, 512; Combined meeting of the sections of surgery and medicine: Symposium on goutre, 551; Stated meeting of the council, Oct. 4, 1916, 581; Essex North District Medical Society, 618; Discussion of symposium on goutre, 688; Report of committee on Workmen's Compensation, 686; Symposium on the communicable diseases of childhood, 703; Middlesex South District Medical Society, 771; Workmen's sickness insurance and the doctor, report of committee, 880.

- Massachusetts Tuberculosis Dispensaries** and their relation to the practising physicians, John S. Hitchcock, M.D., 296.
- Massachusetts Tuberculosis Sanatoria**, role of, 541.
- Mastoid Disease**, the streptococcus mucosus capsulatus as a cause of, Gorman Bacon, M.D., 402.
- Operation, embolic pneumonia** following the, George L. Richards, M.D., 206.
- Measles** and the public health, Edwin H. Place, M.D., 704.
- Mechanism** of the protection afforded by the drainage of prostates as a preliminary to operation, Hugh Cabot, M.D., and E. Granville Crabtree, M.D., 633.
- Medical aspects of social insurance**, 917.
- Medical Education**, gaps in, James J. Putnam, M.D., 733.
- Medical Ethics**, question in, H. P. Greeley, M.D., 70.
- Medical Examiners**, national board of, 104.
- Medical Heroism**, an instance of, 549.
- Medical Legislation**: Kern-Doremus Bill, shipment of poisonous drugs by mail, 390; On poliomyelitis, 466; Plan of State Department of Health for more tuberculosis hospitals, Eugene R. Kelley, M.D., 524; Regarding Christian Science practitioners, 609; The Dotten Bill, 835, 840; (see individual accident insurance).
- Medical Practice**, country, some efficiency problems in, Frank H. Washburn, M.D., 328; (see state control of), 426.
- Medical Preparedness**, American committee for, 103; The "unpreparedness" of the medical profession, H. D. Arnold, 111.
- Mental Deficiency**, the somatic factor in, 62; The menace of, from the standpoint of heredity, Henry H. Goddard, Ph.D., 267; Its remedy, 278; Relation between, and crime, A. Warren Stearns, M.D., 406; Mental defect, relation of epilepsy to, Hale Powers, M.D., 861. (See mental hygiene.)
- Mental Diseases**, Massachusetts commission on, 210; A materialistic view of, 353; Psychiatric clinic for criminals, 506; Mental pitfalls of adolescence, Henry R. Stedman, M.D., 695; Massachusetts conference on feeble-mindedness, 877.

White, M.D., 264; Menace of mental deficiency from the standpoint of heredity, Henry H. Goddard, Ph.D., 269; Mental deficiency and its remedy, 278; Major divisions of, public, social, individual, E. E. Southard, M.D., 404; Massachusetts conference on feeble-mindedness, 877.
- Mental Preparedness**, James P. Putnam, M.D., 260.
- Mercury-Vapor-Quartz Light** as a valuable therapeutic agent, artificial heliotherapy, John Bryant, M.D., 600.
- Metabolism**, pancreas and, in diabetes, speculations regarding the, Hugh P. Greeley, M.D., 753.
- Mexican Situation**, medical aspects of the, 28.
- Military Medicine**, course in, at Harvard Graduate School, 64.
- Milwaukee County Medical Society**, meeting of, 505.
- Miscellany**: The pay consultation clinic at the Massachusetts General Hospital, 32; American Red Cross preparations, 34; Red Cross appeal and instructions, 68; resume of communicable diseases for May, 1916, 103; communicable diseases for June, 143; the fly problem, 145; new method of making anti-hog-cholera serum, 179; United States medical reserve corps, 180; fraudulent infantile paralysis "cures," 248; prevention of poliomyelitis, 249; instructions to field workers regarding procedure for the control of poliomyelitis, 282; the Lillienfeld x-ray tube, 432; declining birth rates, 432; resume of communicable diseases in Massachusetts for August, 1916, 468; animal transmission of human diseases, 510; the story of the Dack family, a study in dysgenics, 512; the sanitary progress and vital statistics of Hawaii, 546; Baldwinville hospital cottages, 547; occupation and health in adolescence, 548; health insurance, 549; an instance of medical heroism, 549; resume of communicable diseases for September, 1916, 618; army surgeons as military commanders, 620; American Society for the Control of Cancer, 654; competitive examination for state epidemiologist, 735; State Department of Health, 735; Massachusetts State Department of Health, communicable diseases for October, 1916, 809; United States civil service examinations, 810; the Dotten Bill (House No. 1015), 840; tendencies in health insurance legislation, 921.
- Morland, Dr. William W.**, 243.
- Moseley memorial**, 614.
- Motion Study** for more efficient operating, 465.
- Mount Sinai Hospital**, memorandum in relation to the proposed "bill for paying patients" to be conducted in collaboration with a group of specialists, 396.
- Murphy, John Benjamin, M.D.**, death of, 278; Obituary, 340.
- National Board of medical examiners**, 104.
- Navy** as a field for medical work, 689; Health and sanitation in, 876.
- Neonovarian** insecta, exfoliative dermatitis following, Rene Bine, M.D., 96.
- Nephritis**, tests of renal function from the standpoint of the general practitioner, Francis W. Peabody, M.D., 158; Eye changes in renal diseases, their diagnostic and prognostic value, Peter Hunter Thompson, M.D., 161; Discussion, 164.
- Neuritis, peripheral**, following emetic treatment of amebic dysentery, A. S. Kilgore, M.D., 380.
- Neuropsychic Affections**, psychic and, in war, E. Regis, M.D., 784.
- New England Surgical Society**, 575.
- Neurotic Addiction**, the possibility of, 507, 615.
- Obese**, circulatory disturbance in the, Clifton L. Buck, M.D., 332.
- Obesity**, treatment of, by a rational diet, Edward E. Cornwall, M.D., 601.
- Obituary**: Cushing, Ernest Watson, M.D., 357; Gay, Warren Fisher, M.D., 358; Murphy, John Benjamin, M.D., 340; Stone, Eugene Potter, M.D., 431; Lincoln, David, Francis, M.D., James J. Putnam, M.D., 692; Willis, Reuben, M.D., 431; Woodbury, Louis Augustus, M.D., 145.
- Obstetric**, report of progress in, Robert L. De Normandie, M.D., F.A.C.S., 867; Treatment of weak labor pains, Stephen Rushmore, M.D., 659.
- Occupational Diseases**, certain occupations as contributing factors in diseases of the skin, Charles J. White, M.D., 35; Occupation and health in adolescence, 548.
- Oppenheim's** new disease of children and young adults, dystonia musculorum deformans, Isador H. Coriat, M.D., 383.
- Ophthalmology**, progress in, Edmund W. Clap, M.D., 798.
- Orthopedic Surgery**, eleventh report of progress in, Robert B. Osgood, M.D., Robert Soutter, M.D., Hermann Bucholz, M.D., Harry C. Low, M.D., and Murray S. Danforth, M.D., 808, 842.
- Oxytocin**, insufficient as a factor in disease, Francis H. McCrudden, M.D., 480.
- Pancreas and Metabolism** in diabetes, speculations regarding the, Hugh P. Greeley, M.D., 753.
- Paralysis**, treatment of, by intra-ventricular injections of diarsenized serum, with presentation of cases, Philip Coombs Knapp, M.D., 24; General report of the clinical symptomatology and laboratory findings in three cases of under intravenous arsenobenzol treatment, G. E. Mott, M.D., and S. M. Bunke, M.D., 841.
- Parker, William, Thornton, M.D.**, 243.
- Pateila**, operative treatment of fracture of the, Charles L. Scudder, M.D., and Richard H. Miller, M.D., 441.
- Peptic Ulcer**, a study of, from the diagnostic point of view, R. H. Philbrick, M.D., 121.
- Peripheral Neuritis** following emetin treatment of amebic dysentery, A. R. Kilgore, M.D., 380.
- Peruvian Custom**, a Horace Giraldi, 395.
- Pericarditis**, the occurrence and diagnosis of, Edwin A. Locke, M.D., 590.
- Physicians and the income tax**, 952.
- Physically Defective**, the, Edward O. Otis, M.D., 737.
- Physiological point of view** and autopsies, Francis H. McCrudden, M.D., 167.
- Pistol-Shot Wound** of the stomach, Charles A. Atwood, M.D., 136.
- Pneumonia, Embolic**, following the mastoid operation, George L. Richards, M.D., 206.
- Poisonous Drugs** by Mail, shipment of, Kern-Doremus Bill, 390.
- Poliomyelitis**, epidemic, the symptomatology and diagnosis in the acute stages, Francis R. Fraser, M.D., 82; The N. Y. epidemic, 101; Prevalence of, 137; Epidemics of, 172, 578, 619; Progress of epidemics, 211, 318, 351, 389, 427, 507, 542, 611, 651, 690, 730, 808, 874, 919; Suggestions as to the prevention of, W. Stewart Whittemore, M.D., 520; Epidemics of Philadelphia Philadelphia County Medical Society, and the Philadelphia Pediatric Society, 238; Prevention and treatment of, 242, 249; "Fraudulent infantile paralysis cures," 248; Treatment of, 274; Instructions to field workers regarding procedure for the control, 282; Rat theory of, Mark W. Richardson, M.D., 397; Transmission of, 426; Lighter forms of, Arthur W. Fairbanks, M.D., 434; A case of, W. E. Pierce, M.D., 436; Legislation on, 468; Report of epidemic for August, 469; Anterior, A. J. McLaughlin, M.D., 587; Ammonium salicylate in, Beverly Robinson, M.D., 773.
- Post-Graduate teaching**, new for, 454, 458.
- Pott, the man who potted**, Jean-Pierre, David, John Ridlon, M.D., 336.
- Pregnancy**, notification of, 63; Complicated with hernia, John P. D. Milner, M.D., 427; Failing cardiac compensation during, Charles H. Lawrence, M.D., 858.
- Preparedness** for health, Haven Emerson, M.D., 811.
- Precedents**, vaginal hysterectomy for, with a report of fifty cases, P. E. Truesdale, M.D., 13.
- Progress**: Progress in biochemistry, A. Everett Austin, M.D., 639; Report of progress in dermatology, John T. Bowen, M.D., 758; Progress in gynecology, Stephen Rushmore, M.D., 494; Report of progress in obstetrics, Robert L. De Normandie, M.D., F.A.C.S., 867; Progress in ophthalmology, Edmund W. Clap, M.D., 798; Eleventh report of progress in

- orthopedic surgery, Robert B. Osgood, M.D., Robert Soutter, M.D., Hermann Bucholz, M.D., Harry C. Low, M.D., and Murray S. Danforth, M.D., 309.
- Proteases** And in adults, T. Chittenden Hill, M.D., 127.
- Prosthetics**, drainage of, the mechanism of the protection afforded by this, as a preliminary to operation, Hugh Cabot, M.D., and E. Granville Crabtree, M.D., 453.
- Psychic and Neuropsychic Affections** in war, E. Regis, M.D., 784.
- Psychiatric Cases**, indications for wet packs in, an analysis of 1000 packs given at the Psychopathic Hospital, Boston, Mass., Herman M. Adler, M.D., 672.
- Psychiatric Clinic** for prisoners, 506.
- Psychiatrists**, the need of, in the Army and Navy, 802.
- Psychopathic Hospital**, the Yerkes-Bridges point scale as applied to candidates for employment at the, C. S. Rosay, 322.
- Psychoses**, acute, of war, 805; Exhaustive infective, fatty degenerative changes in the Purkinje cell belt of the cerebellum, in, Egbert W. Fell, M.D., 819.
- Purkinje Cell Belt** of the cerebellum, fatty degenerative changes in the, in exhaustive infective psychoses, Egbert W. Fell, M.D., 819.
- Pyorrhea Alveolaris** and its treatment, 891; The present status of alveolar osteomyelitis, S. Medalla, M.D., 367; And its treatment, Beverley Robinson, M.D., 472.
- Rat Theory** of poliomyelitis, Mark W. Richardson, M.D., 397; Elimination of the rat, 574.
- Renal Diseases**, eye changes in, etc., Peter Hunter Thompson, M.D., 161.
- Renal Function**, tests of, from the standpoint of the general practitioner, Francis W. Peabody, M.D., 158.
- Retrolateralis**, the radical cure of some, an expedient for, Edward Reynolds, M.D., 830; And ptosis, 836.
- Rosenkeller Foundation**, establishment of psychiatric clinic for criminals by, 506.
- Röntgenological Examination**, pre-operative in cancer of the breast, John W. Lane, M.D., 232.
- Rosenkreiz Ray**, treatment of Graves' disease by, Malcolm Seymour, M.D., 548.
- Röntgenotherapy** in hypertrophy of the thymus gland, Philip H. Cook, M.D., 483; Some considerations on the present status of, Joseph Shohan, M.D., 321.
- Sanguineous Lacerimation**, M. J. Konikow, M.D., 607.
- Sanitation** and health in the Navy, 875.
- Scarlet Fever**, control of, D. M. Lewis, M.D., 682; The etiology of, F. B. Mallory, M.D., 713; Charles Y. Chapin, M.D., 715.
- Secretions** of the digestive tract, a clinical study of the, Thomas R. Brown, M.D., 715.
- Shakespeare's Genius**, medical aspects of, 316.
- Shock** at the front, W. T. Porter, M.D., 854; And low blood pressure, 872.
- Sickness Survey** of Boston, Frederic J. Cotton, M.D., 112.
- Skin**, diseases of, the certain occupations as contributing factors to, Charles J. White, M.D., 35; Normal reaction of the, to stroking, Edward A. Tracy, M.D., 197.
- Social Survey**, functions of, in state hospitals, Hannah Curtis, 271; Cases, the intensive group of, Mary C. Jarrett, 824.
- Smallpox** in Roxbury, Massachusetts, 917.
